Our File No. 7373G

Dear Mr. Gillen-Schwartz:

We are following-up on our letter of October 22, 2014.

Our client does not believe that this matter is worth fighting over. He is seriously considering finding a new name and transitioning to that new name. However, this may require some time since there is product in the pipeline.

We are is currently looking into how long it may take to transition into the new name and how much product is in the pipeline. We will keep you advised.

Very truly yours,

Norman E. Lehrer
